Re: **PRESS RELEASE** - 2023 Grand List Totals

The grand list figures for the 2023 Grand List have been compiled and certified. The figures below represent a comparison between the Grand List for 2022 and the Grand List for 2023. Overall the Grand List for 2023 is up by .09% (percent) over the 2022 Grand List.

Real Estate - is comprised of Residential, Commercial, Industrial, Vacant Land and Public Utility. The increase in Real Estate this year is due to improvements to Residential, Commercial and Industrial properties, in addition to a few commercial properties falling off of exemptions.

Personal Property - increased due to the continued improvement of infrastructure and relocation of equipment of some of the Top Ten Taxpayer businesses.

Motor Vehicle - decreased, due to increased supply of new vehicles causing older vehicles to decrease in value from an all-time high, which was a direct result of supply chain issues with the shutdown of many automotive manufacturing plants because of Covid-19.
