Mayor Elinor Carbone
Members of the City Council
Members of the Board of Public Safety

RE: State Contract #22PSX0133 (2) Trucks for Traffic Division

Fleet Manager Emil Castro presented a request to the Vehicle Replacement Advisory Board to utilize State Contract #22PSX0133 and purchase two (2) Trucks for the Traffic Division. One (1) F450 Insulated Bucket Truck with material handling option, \$117,811.00: One (1) F350 Combination dump and service body with spreader and plow, \$126,931.28. These purchases would be through MHQ Municipal Vehicles, Middletown, CT from State Contract #22PSX0133 (Ford Police Interceptor Utility Vehicles).

I respectfully recommend that City Council accept the recommendation of both the Vehicle Replacement Advisory Board and Fleet Manager Emil Castro to authorize the Mayor to award the purchase of these vehicles from MHQ of Middletown, CT for \$244,742.28 and to have the Mayor act on the behalf of the City regarding the execution of the contract and its administration pending approval from the Board of Public Safety.

Funding of these vehicles will be from the vehicle replacement account.

Thank you for your consideration on this matter.

Pennie Zucco
Purchasing Agent

cc: E. Castro; W. Baldwin, B. Barown, D. Baldis, R. Drew

Contract 22PSX0133

MHQ for City of Torrington

VST40 MHI/Steel Body

We are pleased to quote a Versalift VST40MHI insulated telescopic/articulating aerial platform lift with material handling jib and winch to include the following features:

- Working height 45' 4" with Side reach of 30' 2"
- Meets ANSI A92.2-1990 requirements for Category C, 46 KV and below.
- 24" x 30" x 42" in fiberglass platform with drop-in platform liner rated to 46KV and below
- Platform to have on step facing the curb side for access from the tail shelf and vinyl platform cover
- Hydraulic platform rotation of 180 degrees with platform capacity of 350lbs.
- Platform mounted full pressure Unitrol single-stick control with safety trigger and emergency stop.
 - TruGuard™ dielectric isolating system with Right hand Single Stick control. All control handles are isolated and Tested per ANSI 92.2 2015. The high resistive dielectric system is protected from direct environmental and job-related contamination. TruGuard™ technology incorporates the use of full hydraulic controls with durable metal handles and linkages.
- Turntable has 360 degree continuous boom rotation
- Hydraulic tool circuit at upper controls with pressure limit. Does not include quick disconnects
- Hydraulic winch with manual insulated jib at platform with up to 1000lbs capacity.
- 12 volt back up hydraulic pump system for emergency operation of boom
- Full pressure turret mounted lower controls including override.
- Engine start/stop from platform and lower controls.
- Fiberglass inner boom and ELECTROGARD provide 42 in. insulation gap fully retracted
- Steel lower boom with chassis insulating fiberglass insert providing 12" insulation gap
- Meets ANSI A92.2-1990 requirements for Category C, 46 KV and below.
- Non-lube bearings used at all pivot points.
- Master/slave hydraulic leveling with upper control to tilt the platform for clean out or rescue.
- Molded rubber cradle for bucket rest
- Lift and pedestal finish painted with white urethane paint.
- A frame front outriggers with controls at rear curb and street side of body
- Outrigger/boom interlock wired to all outriggers and boom rest switch to prevent boom use unless outriggers are deployed. Includes outrigger motion alarm.
- Two operator's manuals and two service manuals.
- Full body harness with decelerating lanyard (one)
- Two Slope Indicators

Dakota Steel Utility Body 132" long x 40" high x 94" wide including the following:

- Structural steel subframe with 12-gauge treadplate floor
- Automotive bulb style weather stripping for all doors
