Chief Baldwin explained that the Drug Recognition Expert Program that the State has enacted is to get Officers trained to recognize people driving under the influence of narcotics and or alcohol. Right now, all the Officers are going through advanced field sobriety test training. DREs can test individuals for being under the influence of other drugs, including alcohol. The goal for Torrington is to have three to five certified DREs. Any fatal or serious motor vehicle accident is required to have a DRE report to the scene. Torrington currently has one DRE, if they are not available the City can reach out to other local agencies to assist in the investigation. Councilor Maniccia asked what the goal was for the Police Department with the DRE, Chief Baldwin said that he would like the DRE assigned to the accident investigation team. Councilor Hoehne asked how many serious or fatal accidents Torrington had last year, Chief Baldwin didn't have an exact number but said about five or six, but year over year they are increasing. Councilor Cavagnero asked if the DRE is in response to the State legalizing recreational marijuana, Chief Baldwin said that the DRE does have the ability to test for other narcotics and not just blood alcohol content. Chief Baldwin went on to explain that the DRE test takes 2-6 hours to administer. Councilor Oliver asked if we are seeing an uptick in arrests due to under the influence of marijuana, Chief Baldwin said at this point not yet. Councilor Hoehne asked Atty. LaMere if she was part of the contract negotiations and if it was like what other towns are doing with their DREs. Attorney LaMere said that this type of contract is normal.
