Re: Preapproval to purchase Used Roll Off Truck

1. Vote by City Council herein acting as the Water Pollution Control Authority to accept the recommendation of the WPCA Administrator, and the Fleet Manager to preapprove the purchase a used roll off truck not to exceed the amount of \$70,000. This is for the purpose of moving the sludge containers at the plant to keep the solids handling units operating during the weekend. It has proven to be a problem relying on outside contractor to provide this service on weekends or holidays. Preapproval would be needed to be able to buy a used trade in or through an auction.
