Mr. Raymond Drew, Administrator

140 Main Street  
Torrington, CT 06790-5245

Subject: Torrington Harris Road PS Upgrade  
Invoice for Services - through January 31, 2020

Dear Ray,

Please find our invoice for the Harris Road Pump Station Upgrade project. Our efforts from this past period were focused on finalizing the conceptual plan for the design, fulfilling flood protection requirements as well as seeking potential grant monies. We worked with the Division of Emergency Management and Homeland Security (DEMHS) to prepare the Hazard Mitigation Grant Program application; the application was revised and resubmitted after workshops and guidance from both DEMHS staff and EPA regulators.

During this period, the scope of work for the project, and the project approach (2 projects versus 1 comprehensive upgrade) was modified so that a portion of the needed work could be considered for the grant monies. We have not heard the outcome of the application as of the writing of this letter but are prepared to continue assisting the City as needed. Until then, with the exception of the flow analysis, the project is on hold.

As always, if have any questions or need any additional information for this invoice please don't hesitate to contact me.

Sincerely,  
WRIGHT-PIERCE
