Fire Department Presentation

Fire Chief Eric Borden gave a presentation to the City Council and the Board of Public Safety on the Fire Departments Response to EMS calls. Chief Borden said over a six-month period that the Fire Department was responding to EMS calls, to assist and supplement not to replace the care of the EMS. He stated that out of the 821 calls the Fire Department responded to, 126 of those calls were first on the scene. Currently, the Fire Department is responding to 132 of 478 EMD codes. Over the six months, the Fire Department has responded to 23.68% of all the EMS calls that have come in. Chief Borden went on to say that they have had a positive impact by being more present in the community, making a difference in healthcare, and providing overall better service to the City. Commissioner McLeod asked if adding an ambulance would be enough to provide service to the City. Commissioner Benedetto wanted to know what happens when the Fire Department is tied up on an EMS call and a fire call comes in, Chief Borden explained that you cannot predict when calls come in and what those calls might be. Mayor Carbone shared that the overall demand for Medical Emergency services has increased in the City. Commissioner Cogswell asked what calls the Fire Department does not respond to, Chief Borden told him psychiatric, seizure, and obvious death. Commissioner Cogswell also asked if the Fire Department has direct communication with Trinity, Chief Borden told him that it is in progress.

Mayor Carbone explained to the City Council and the Board of Public Safety that Trinity acquired the ambulance service from Campion, and since that time there has been a heightened demand for ambulance services. She further explained that the current services that the City receives from Trinity are covered by patients, and the City pays for nothing. Councilor Hoehne asked how they would be providing extra staff for the additional ambulance, Trinity Health President David Kosciuk said that they will have additional staff available as of July 1, 2023. Commissioner McLeod asked if the City has control of the Primary Service Area (PSA) yet, Mayor Carbone said that they are currently working with Trinity to get the State to assign the PSA to the Municipality. Commissioner Benedetto asked about the impact that an extra ambulance would have on the City, Mr. Kosciuk said that there would be a decrease in out-of-town mutual aid calls, he also said that the extra ambulance would be staffed by EMTs and would be Basic Life Support, 12 hours a day from 8 a.m. to 8 p.m. when the City is the busiest. Councilor Hoehne asked if any other municipalities are seeing the same increase in EMS calls, Mayor Carbone said that they haven't investigated any other areas, stating that every City handles its ambulance service differently and there is no comparison.
