Naugatuck River Greenway Assessment

Phase One (Stillwater Pond to Rte 118)

Torrington, Harwinton, and Litchfield, CT

Naugatuck River Greenway Assessment

Purpose

- To better understand the natural and cultural resources of the River Corridor
- •To identify and promote opportunities for improving water quality.
- •To develop a conceptual plan for improving public access, enjoyment, and passive recreational use of the River.

Study made possible by a grant from DEP and the cooperation of participating agencies and individuals

Torrington, Harwinton, and Litchfield, CT

Naugatuck River Greenway Assessment

Greenway Assessment Team Members

- •Trail Development Potential
- •Priority Recommendations for Improved Public Access
- Implementation

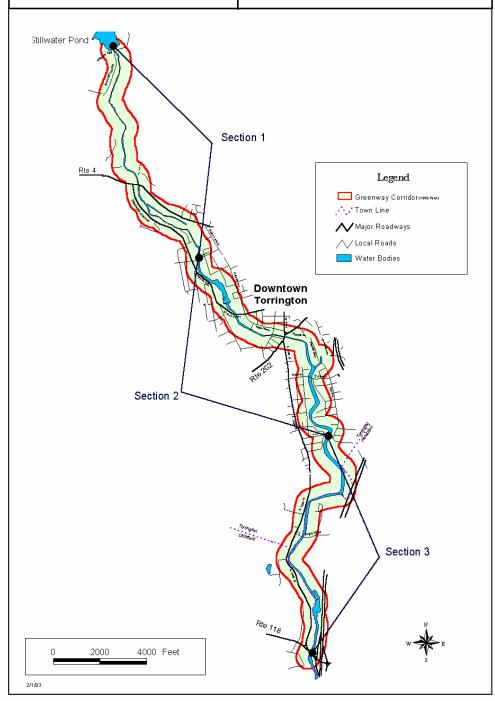

Copy of full draft report available for review at LHCEO or town/city halls of Torrington, Harwinton, and Litchfield.

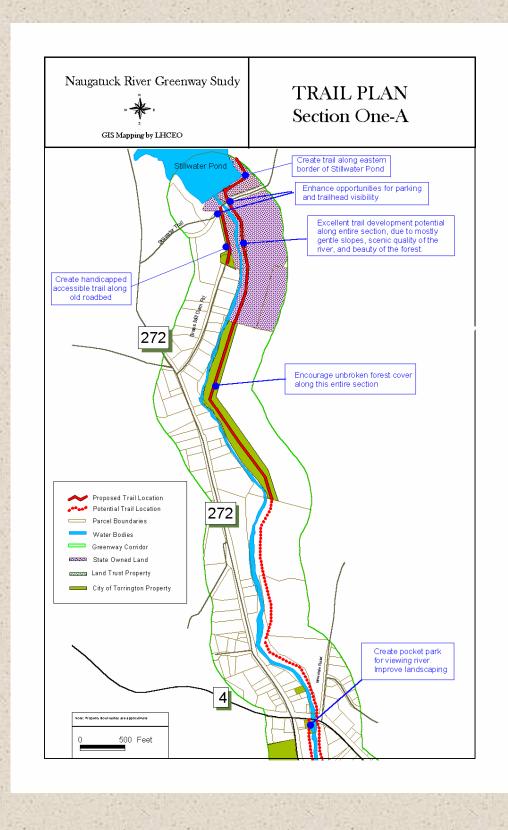

Naugatuck River Greenway Study

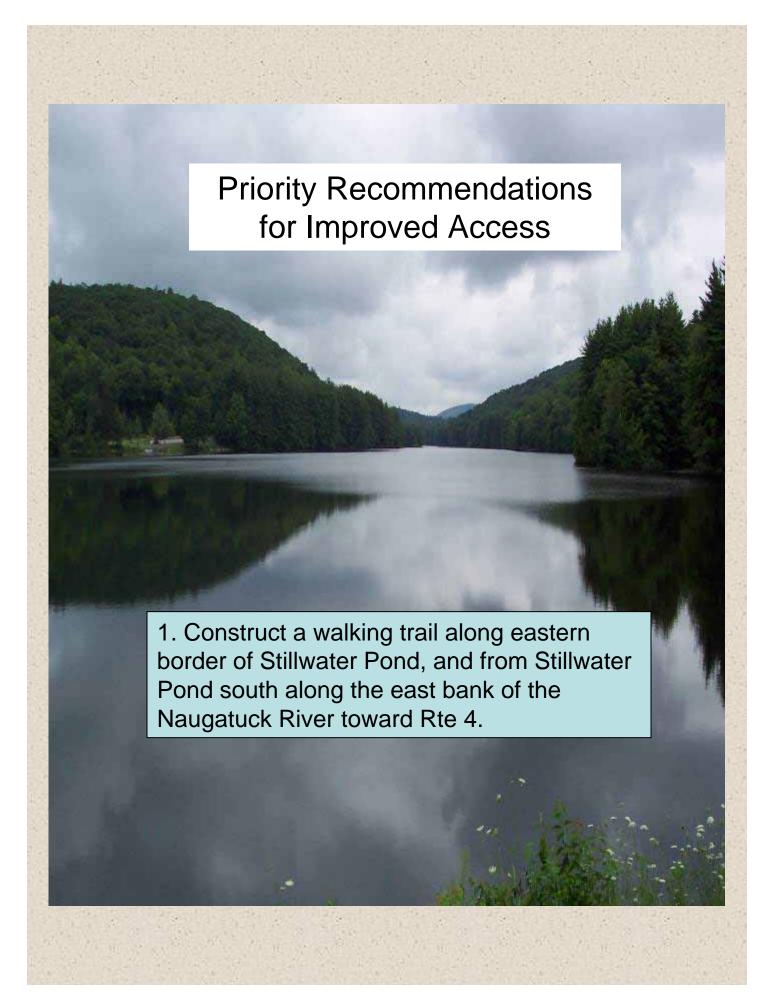

GIS Mapping by LHCEO

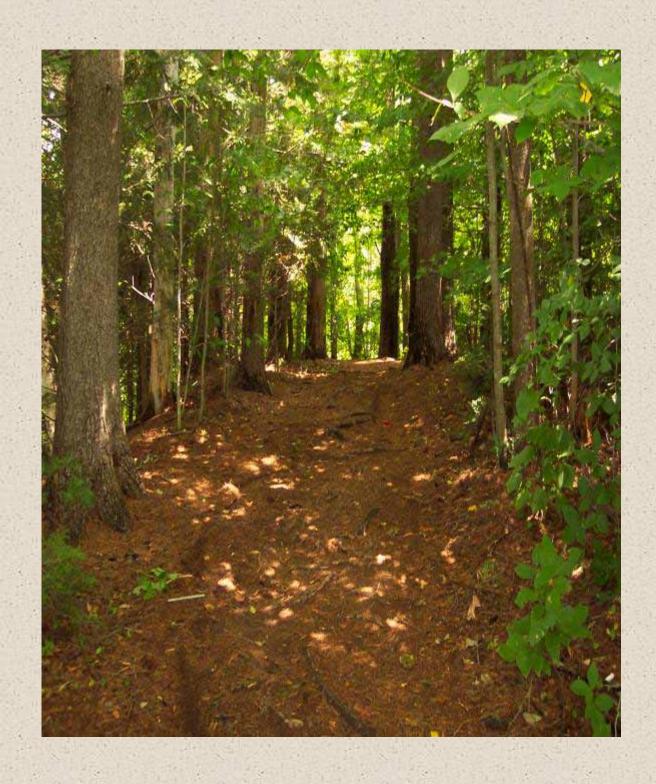

STUDY CORRIDOR

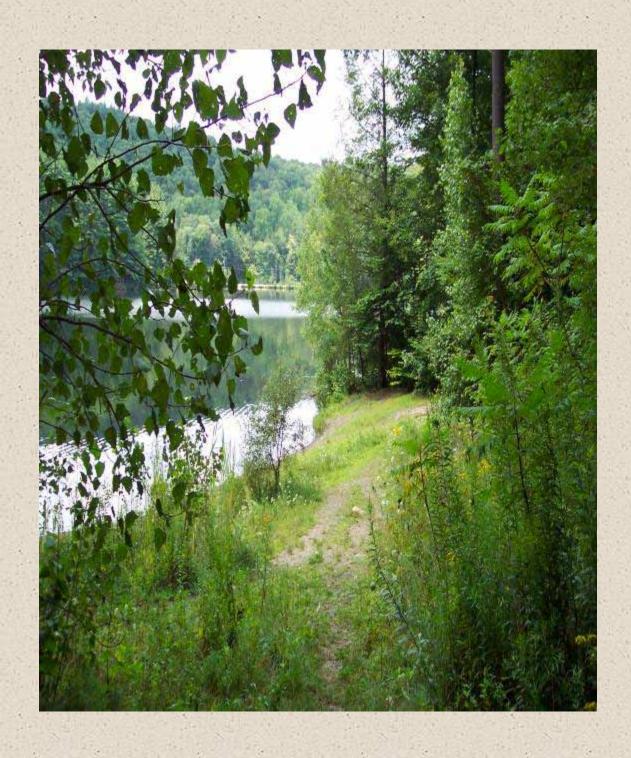

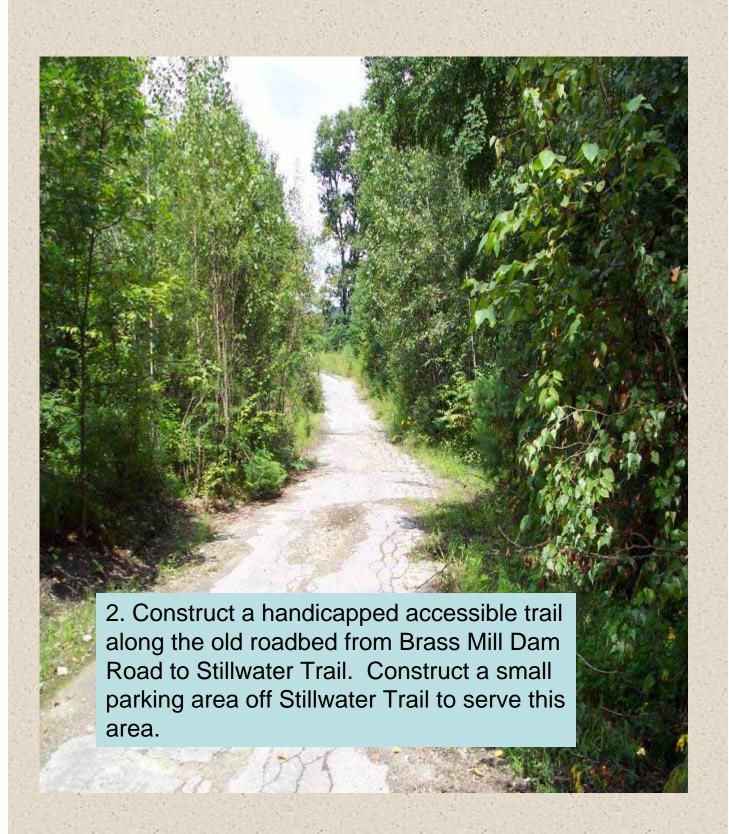

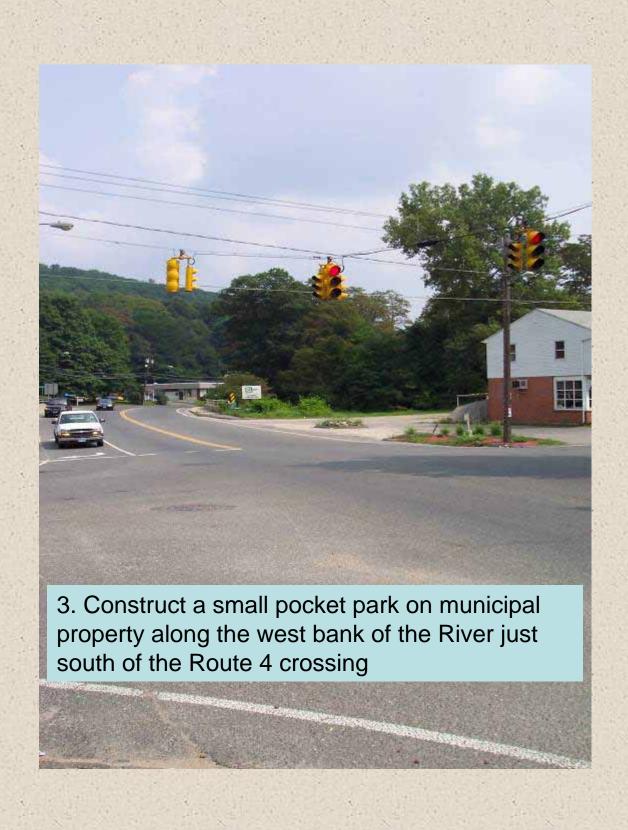

Existing trail at Stillwater Pond

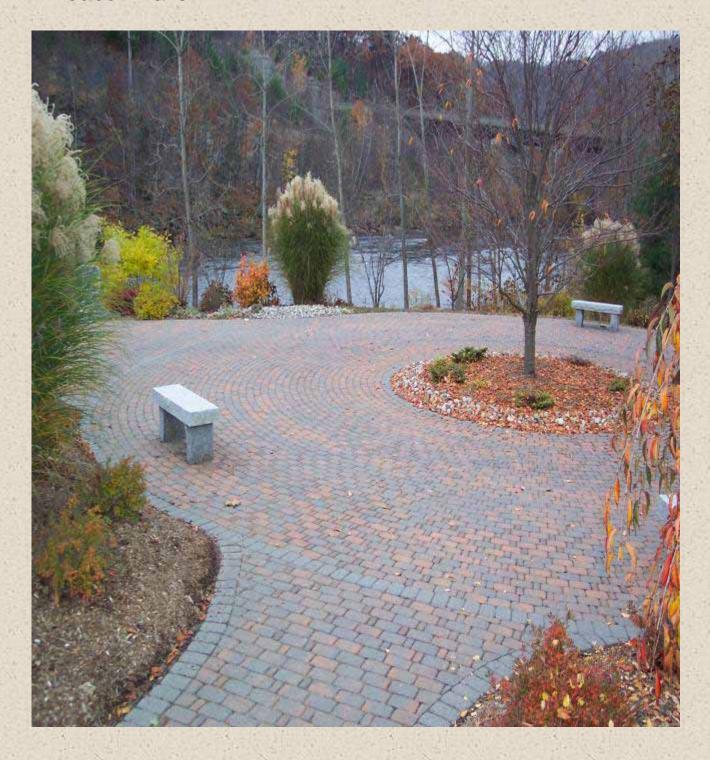

Existing trail at Stillwater Pond

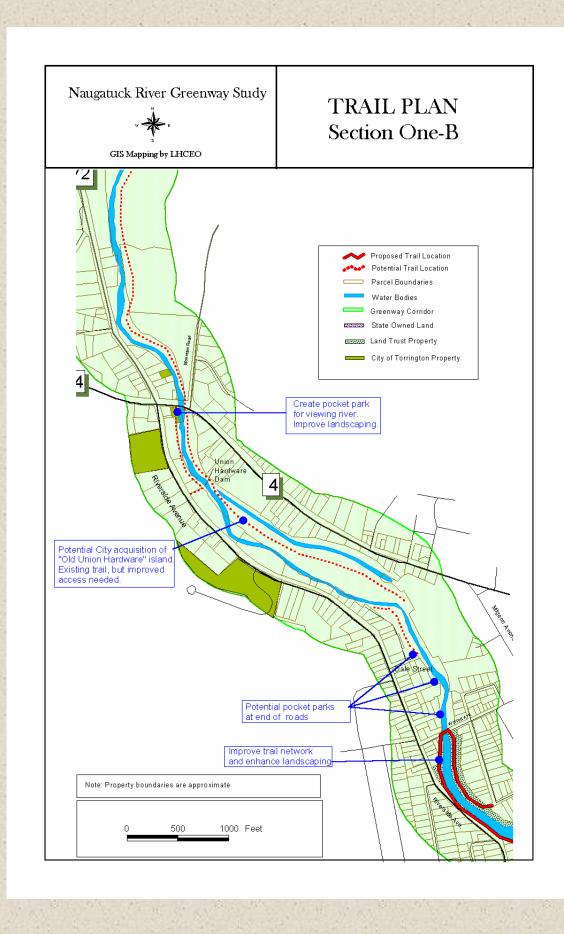

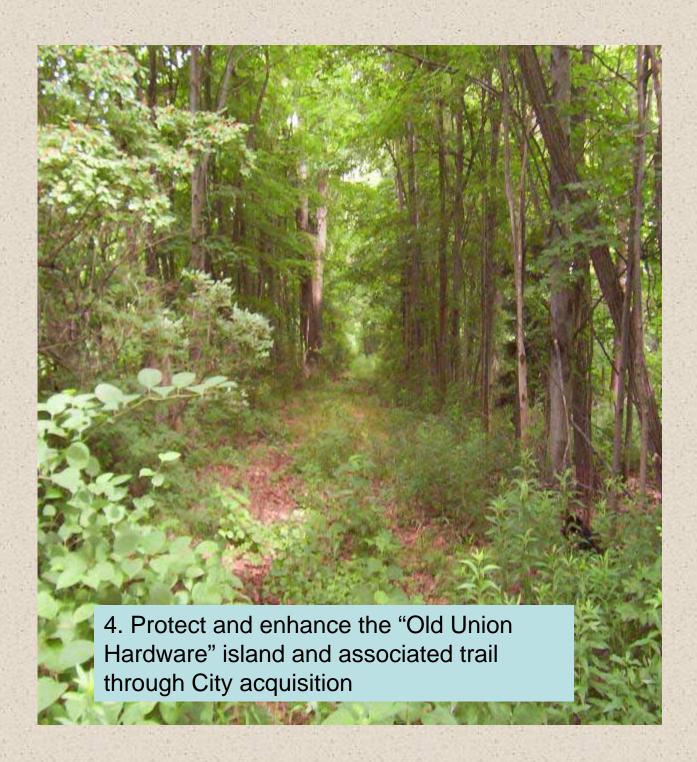

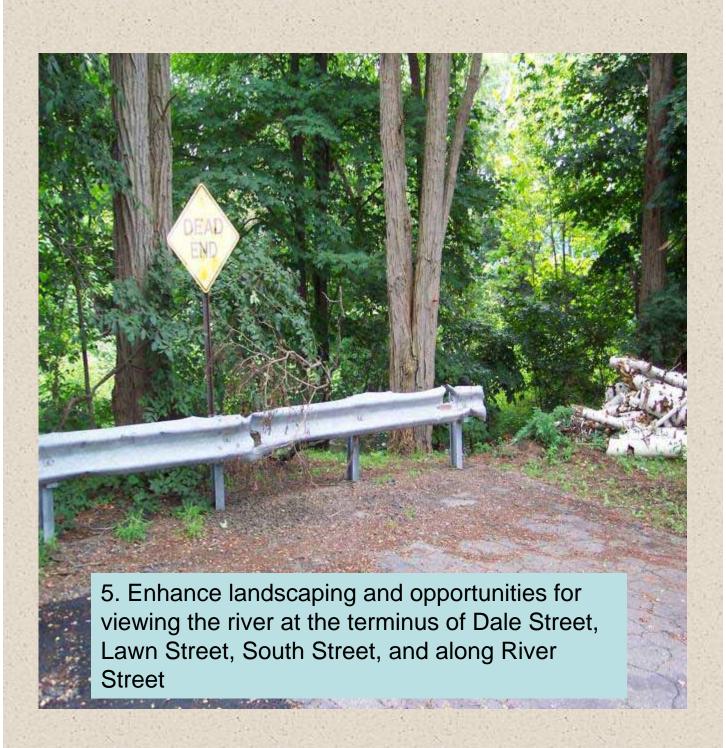

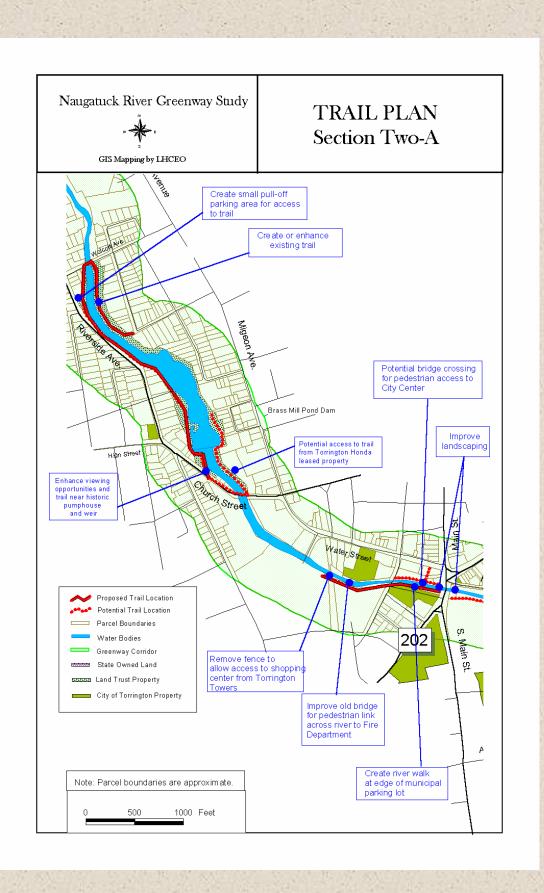

Example of "pocket park" along the Naugatuck River in Beacon Falls.

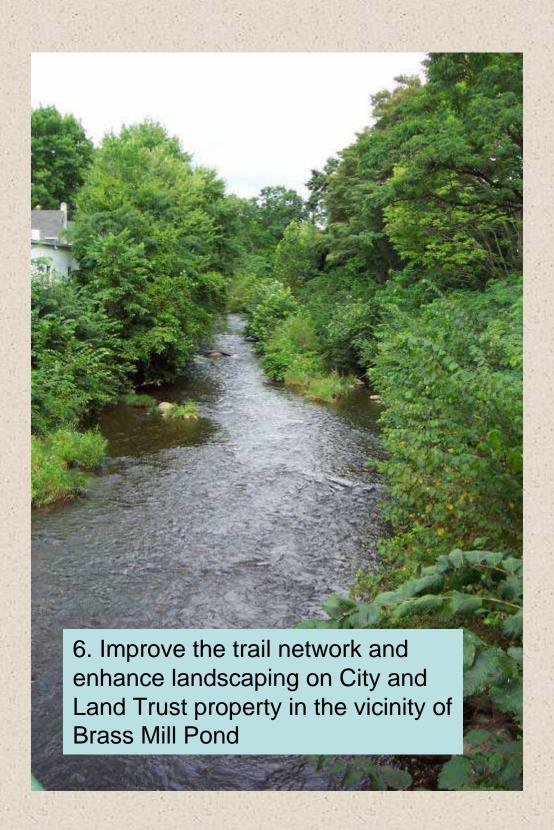

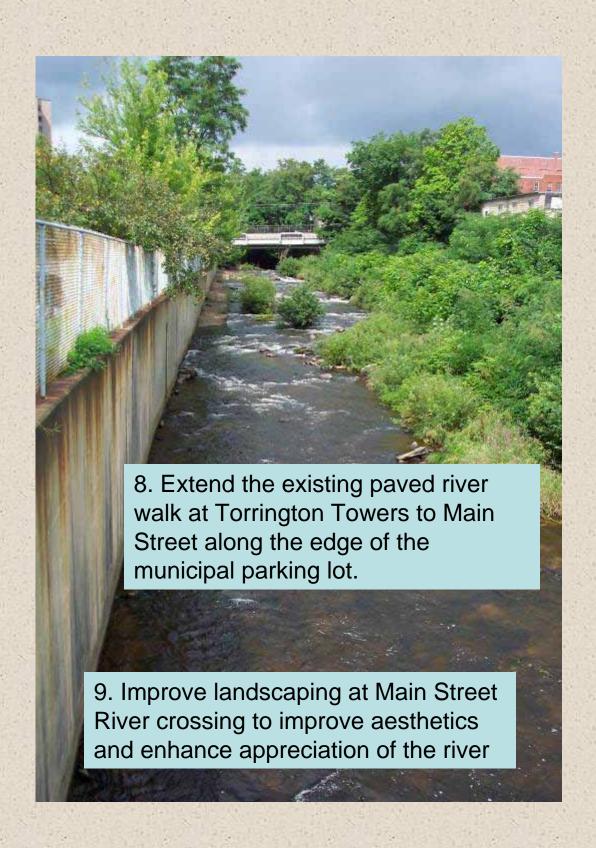

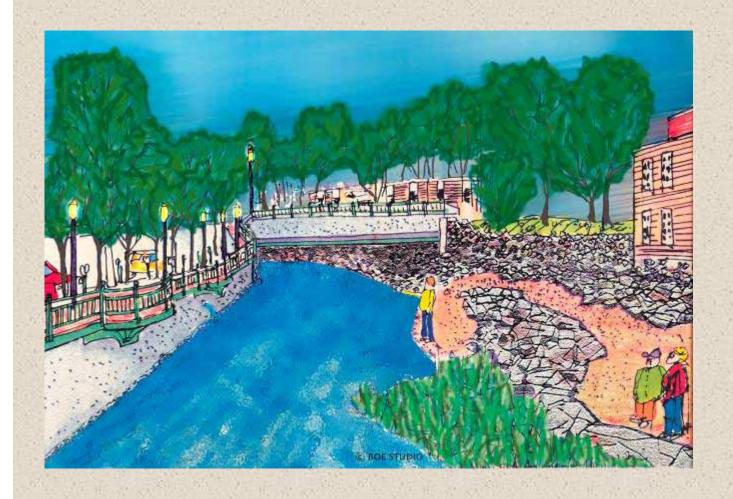

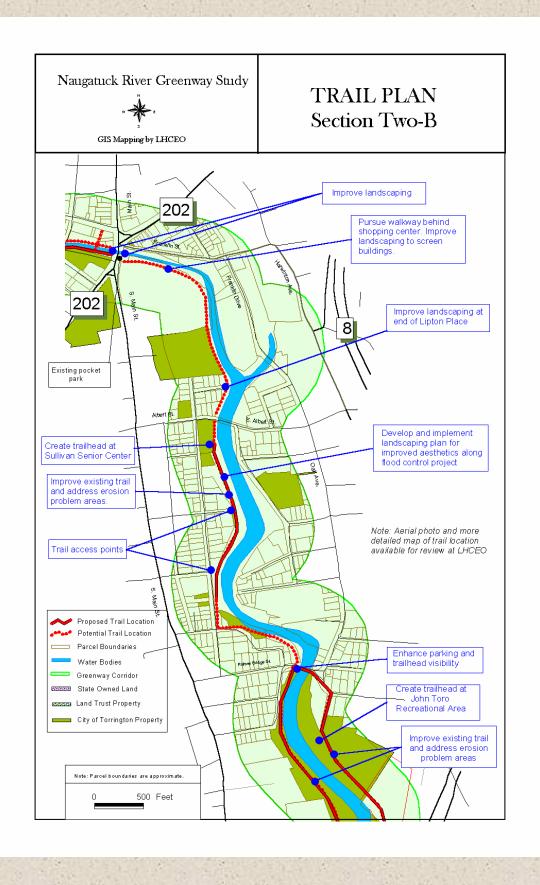

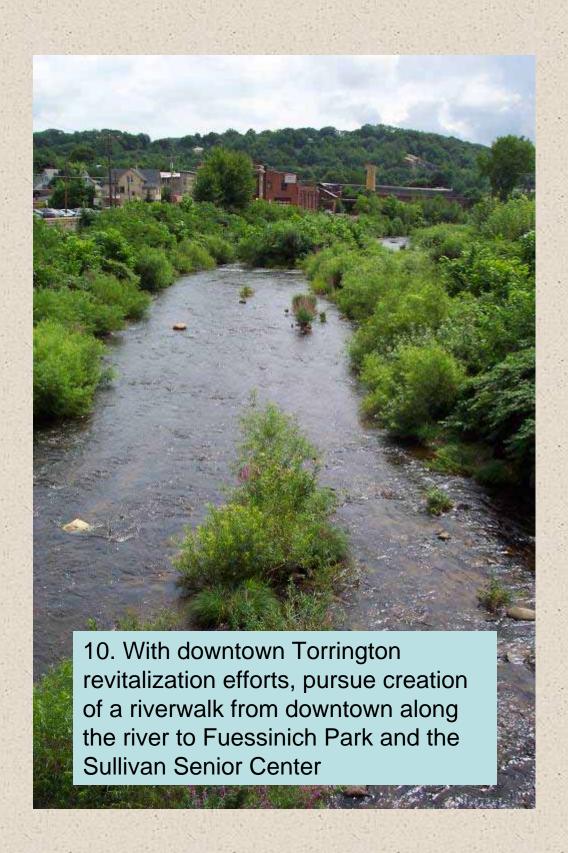

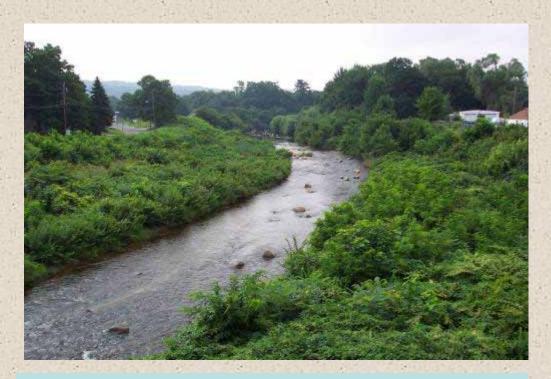

Drawing by local architect Michael Boe of potential riverwalk upstream from Main Street bridge in Torrington.

Example of landscaped cement walls along a watercourse.

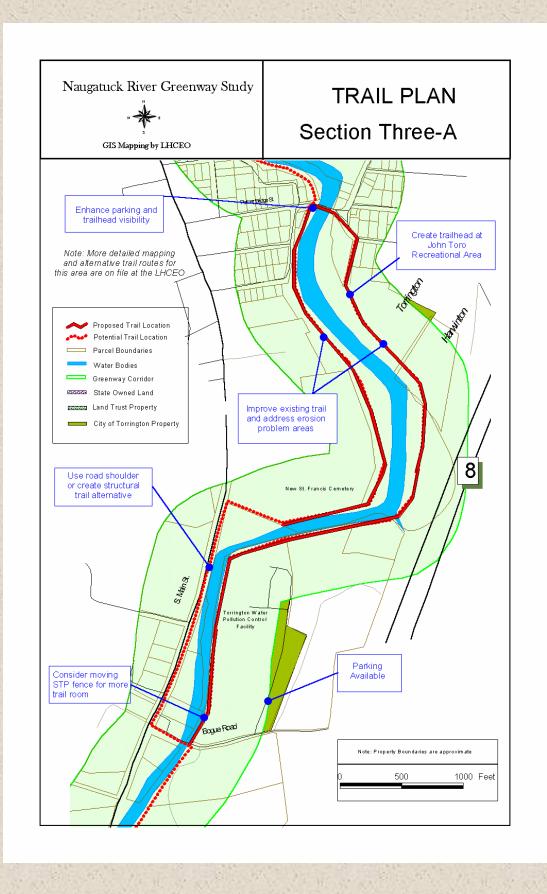

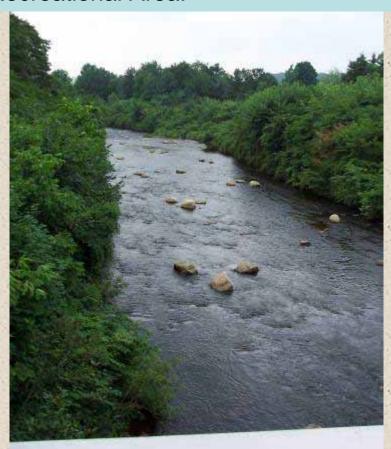

11. Create trailhead at Sullivan Senior Center, improve existing trail, and develop a landscaping plan for improved aesthetics along riverbank.

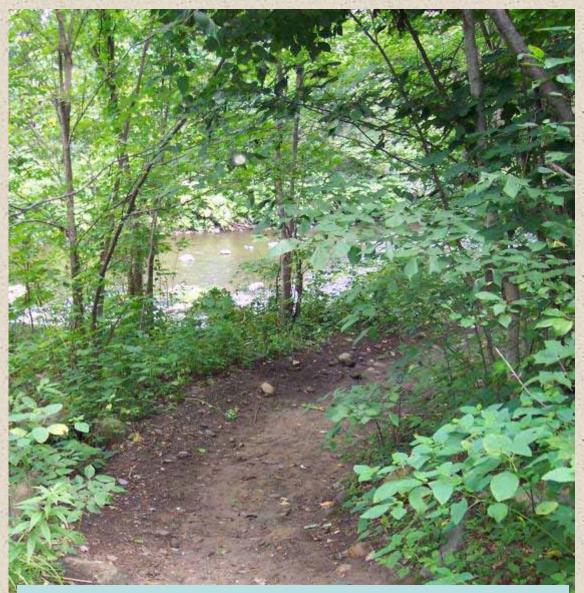

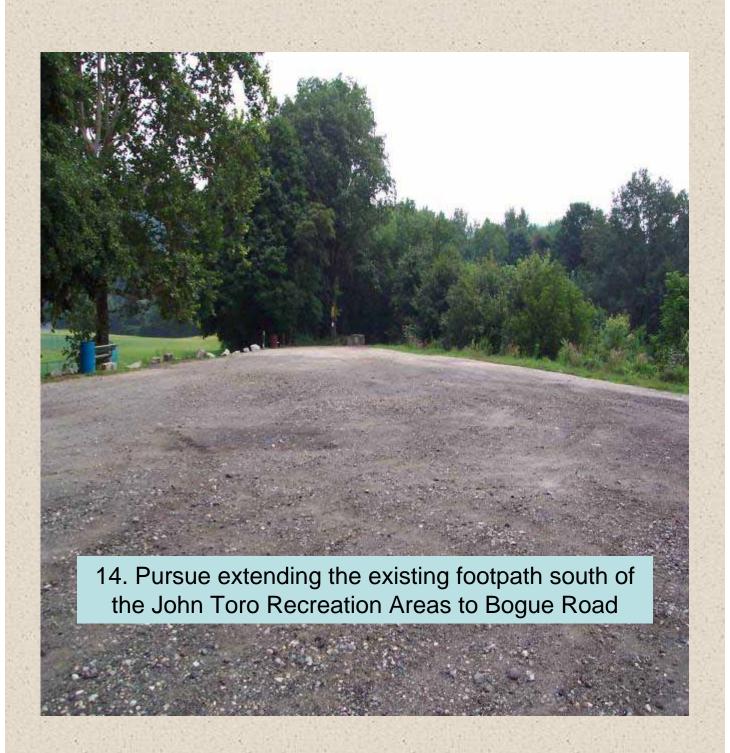

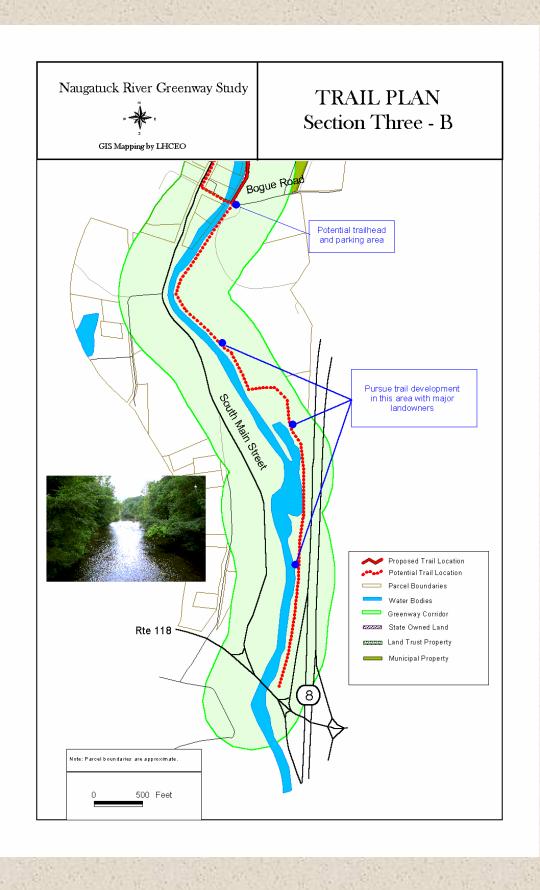

12. Enhance parking and trailhead visibility at Palmer Bridge Street and create a trailhead at the John Toro Recreational Area.

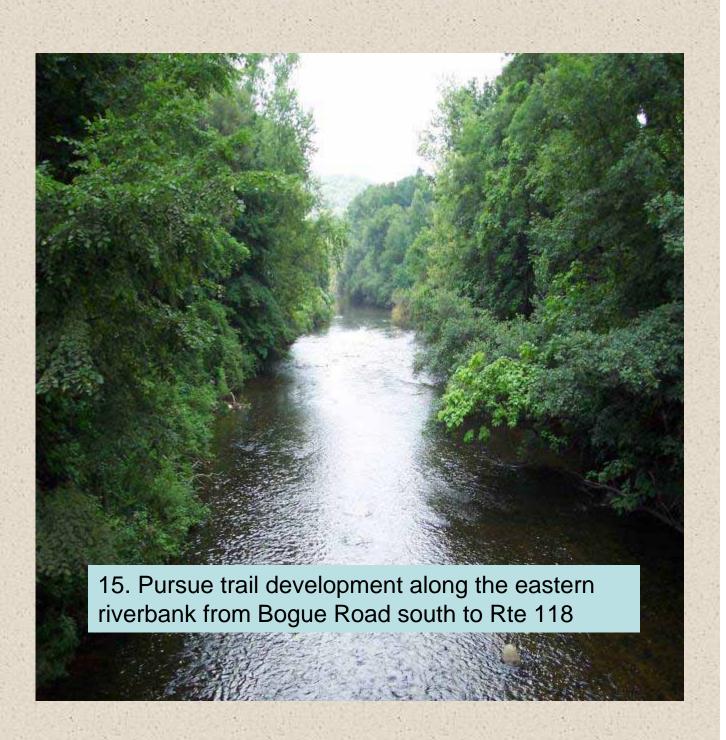

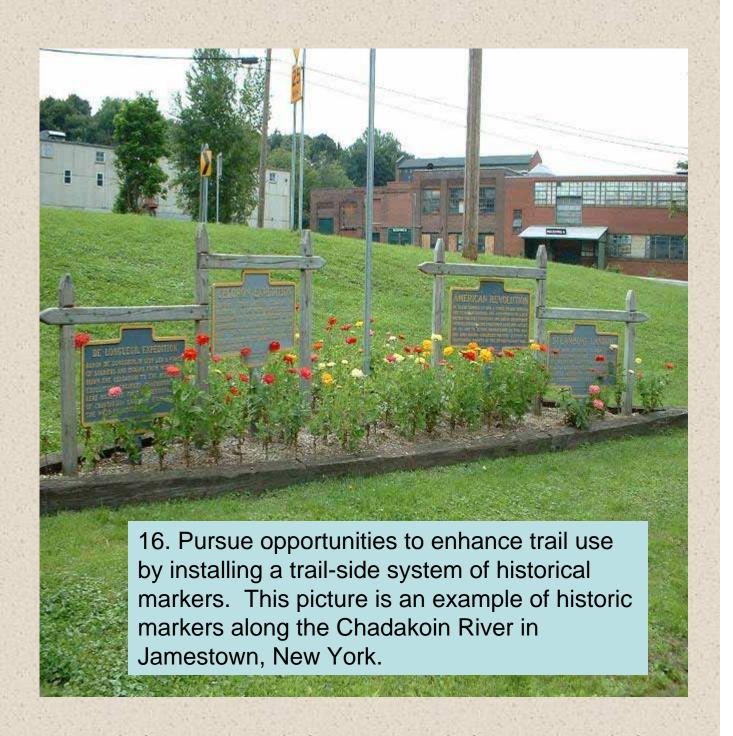

13. Address the severe erosion problems on the existing trail south of Palmer Street Bridge, and take steps to control motorized vehicles along the trail. Develop a vegetation management plan for this area and pursue implementation in cooperation with the U.S. Army Corps of Engineers.

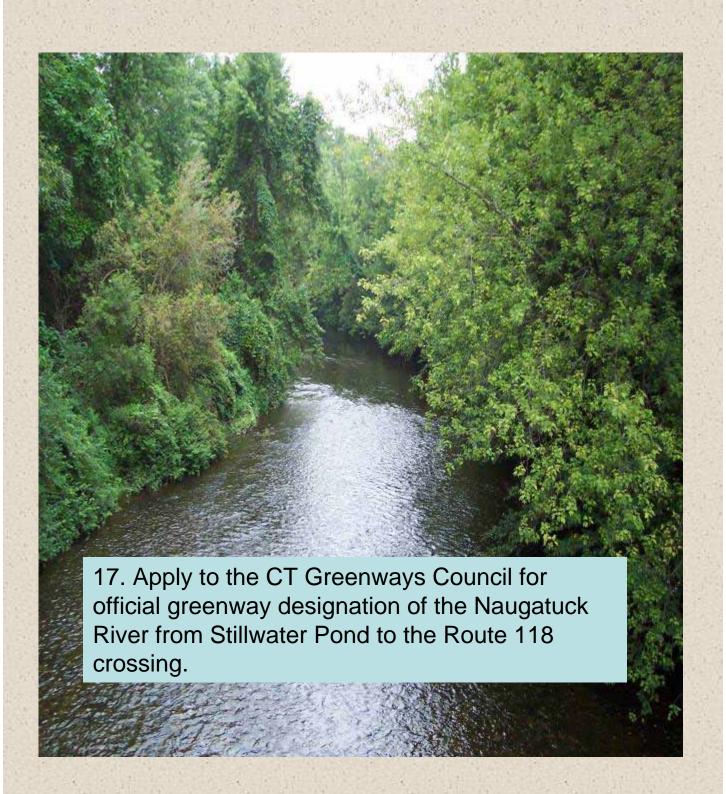

Historic landmark in vicinity of proposed Rte 4 pocket park in Torrington

Why Establish Trails and Greenways?

According to the CT Department of Environmental Protection, trails and greenways offer many benefits including:

- Making communities better places to live by preserving and creating open spaces;
- Encouraging physical fitness and healthy lifestyles;
- Creating opportunities for outdoor recreation and non-motorized transportation;
- Strengthening local economies;
- Protecting the environment; and
- Preserving culturally and historically valuable areas.
