QUESTIONS 1/27/2021

Q1) At the top of page 2 of the RFQ for granular fertilizer product, the Brand is ProScope 19-0-9 .067 Acelepryn. Is this correct or is it supposed to be a combination product with Dimension?

A1) It should be ProScope 19-0-9 50% MESA 100% EXPO .253 Dimension + .067 Acelepryn see link below <https://www.lebanonturf.com/products/2254814>

Q2) Some of the fertilizers listed to quote are golf course blends. The fields listed for application look like all athletic park fields. Are golf fertilizer products required?

A2) We will consider alternates upon review of specifications.

Q3) I am interested in responding to option 2, Turf Applications and option 3, Fertilizer, Seed and Field Drying Agent and Turf Applications. When I look at the pricing section, I'm not sure how to respond. For example, for Alvord Park – Field 1 the pricing boxes for Granular and Spray Applications does not specify what products are to be applied and if this is for option 2, Turf Application or option 3, Fertilizer, Seed and Field Drying Agent and Turf Applications.

A3) The vendors submit a price for granular and spray applications at each location, with the City providing the product to apply. We may choose to purchase products from different vendors and then supply those products to the awarded applicator.

Q4) May I get a copy of the last winning bid the City of Torrington awarded for these services?

A4) SEE ATTACHED
