The undersigned owners of the subject property, hereby consents to necessary and proper inspections of said property by members of the Torrington Inland Wetlands Commission and/or agents of the Commission at reasonable times both before and after a final decision has been issued by the Commission.

The undersigned applicant and owners of the subject property hereby warrant the truth of all statements contained herein and in all supporting documents, according to their best knowledge, information and belief.

 _____
 Applicant Date 11/16/23

 Owner Date _____

INLAND WETLAND APPLICATION REQUIREMENTS

1. Applicants are to submit 1 copy of application along with the proper application fee unless an agent determination is being sought (see attached fee schedule). Payment should be made out to "City of Torrington".
2. Applicants must submit (7) - 11" x 17" plans and (3) full-size plans/reports of supportive data for their application in the form of site plans and/or reports. A suggested list is included with this application. The Commission reserves the right to request additional information at any time during the review process. NOTE: If an agent determination is being sought, only 1 copy of all supporting data (plans and reports) is required.
3. To help facilitate the application and review process, applicants are urged to contact the Inland Wetlands Officer before planning and applying for the proposed project.
4. If a **Public Hearing** is required, the applicant must pay an additional \$280.00 public hearing fee. Payment should be made out to "City of Torrington".
5. When a public hearing is scheduled, the applicant shall notify persons who own land that is adjacent to the land that is subject of the hearing.. The proof of mailing shall be evidenced by a certificate of mailing and the person who owns land shall be the owner indicated on the property tax map or on the last completed grand list as of the date such notice is mailed. This information is available in the Torrington Tax Assessor's Office. All evidence of the certificate of mailing is to be given to the Torrington Inland Wetland Office no sooner than three (3) municipal business days before the date of the public hearing regarding the applicant's proposed activity. The notice shall indicate the reason for the hearing, hearing date, time and location of the hearing.
6. In addition to the notification requirements in the Connecticut General Statutes, notice of all public hearings, except those in which the Torrington Inland Wetlands Commission is the applicant, shall be given in the following manner:
 - The applicant shall obtain from the Land Use Department a sign notifying the public of the hearing. A refundable deposit shall be made by the applicant to cover the cost of the sign. The sign shall conform to the following requirements:
 - a. The applicant shall post the sign in a conspicuous location on the lot affected by the application.
 - b. The sign shall give information on the reason for the hearing (e.g. Inland Wetland application), the time, date, and location of the public hearing and other information requirement by the Wetland Enforcement Officer or Inland Wetlands Commission.
 - c. The sign shall be clearly visible from a street.
 - d. The sign shall be posted at least 10 consecutive days before th public hearing. The sign shall not be removed until after the close of the public hearing.
 - e. Failure to post and maintain the sign as required by this section shall be grounds for the denial of the application.

SUGGESTED SUPPORTIVE DATA FOR INLAND WETLANDS APPLICATIONS

Site Plans:

- Scale no greater than 1" = 100'
- Survey provided of existing conditions at A-2 Survey standards
- Plans stamped by Connecticut state licensed engineer, surveyor, landscape architect and/or architect.
- Boundary lines of wetland soil types with adjacent soil type information. Show and number individual wetland flags on the map. Verify that the wetland flags are still intact in the field, if not, re-flag wetland boundary. Soils information should be shown on the map and signed by a Certified Soil Scientist. Indicate upland review area boundary indicated 75' from wetland soils.
- Indicate area of activity detailing improvements, include existing and proposed stormwater discharge locations, utilities, paving, streets and/or drives, grading, landscaping, any structures with finish floor elevations etc.
- Existing and proposed contours/elevations to be shown at either 1- or 2-foot intervals. Establish elevations referring to mean sea elevation as established by the U.S. Coast and Geodetic Survey.
- Show storm drainage with design details and specifications.
- Show sewage disposal with design details and specifications. Provide Torrington Area Health approvals if septic.
- Show the 100-year flood elevation; existing and proposed.
Indicate on drawings any watercourses, intermittent and/or perennial (see definitions) and vernal pools, or other water bodies. Indicate upland review area boundary indicated 100' from watercourses/water bodies.
- Show watershed drainage areas.
- Provide storm drainage calculations; existing and proposed.
- Provide a sedimentation and erosion control plan., showing location of all erosion controls and construction schedule. Include erosion control narrative indicating stabilization methods, seeding recommendations and timing.
- If filling or removing material from site: provide a description of material to be removed or brought in, including type and quantity.
- Show source of water supply and/or location of well. Provide Torrington Area Health approvals.
- Provide a copy of any other permits that were granted for this project by any other agency: examples - Water Quality Certificate, U.S. Army Corp. of Engineer's 404 permit, D.E.P. Dam Permit, D.E.P. Water Diversion Permit, D.E.P. Wetlands Permit for drainage area over 100 acres etc.
- Provide an Environmental Impact Statement (if requested): include Soil Scientist Report, Engineering Report, an evaluation of plant and animal species associated with the project site and the probable effect of the proposed activity on the ecosystem by a qualified Wetland Scientist or Biologist..
- Anything else deemed necessary by the Commission to fully evaluate the application and its potential impacts on wetlands or watercourses.
