

12'-0" acrylic sign - 3'-0" tall fascias or applied to wall

Art shown not for production - Design intent only

<p>Fabrication and installation companies are responsible for following approved image guidelines and standards expressed in these retail visual standards. Suppliers, installation companies are responsible to field measure and verify all site conditions prior to fabrication and installation. Prior to fabrication shop and construction documents are to be checked for accuracy, tolerance, registration and construction methods that meet approved design, intent and quality standards. These visual standards drawings are design intent only, and are not for construction. Approved suppliers are responsible for shop drawings, construction documentation, structural engineering documents to build these image components. Upon completion of these drawings applications are to have them approved by Gulf retail visual brand team to verify that the approved design intent is met prior to fabrication and installation. All image components must meet government, state and local requirements, all required permits and necessary state and city approvals are needed prior to fabrication and installation.</p>			<p>retail visual standards</p>
