**CITY OF TORRINGTON
PLANNING AND ZONING COMMISSION
SITE PLAN APPLICATION
EXPLANATION OF PROCEDURES**

General:

"Site plan approval from the Planning and Zoning Commission shall be obtained prior to obtaining a Zoning Permit for the construction, expansion, outside alteration or change of use of any building or structure. Site plan approval shall also be obtained prior to the erection of any sign, the alteration or expansion of a parking area, or any change of use of a lot. Only one, two, or three family residences shall be exempt from site plan approval." Torrington Zoning Regulations, Section 8.4.1.

Information Required:

A site plan application must be filed and the application fee must be paid. Additional information needed for a site plan application is described in Sections 8.4.2 and 8.4.3 of the Torrington Zoning Regulations. Other information on setbacks, impervious surface, landscaping, parking, architectural review, and tree preservation is also found in the regulations. It is strongly recommended that an applicant purchase a copy of the Zoning Regulations.

Along with the site plan application the applicant must also submit a form entitled "Environmental Compliance Certification".

Failure of the applicant to submit the required information is grounds for denial of the application.

Approval Process:

Applications are submitted to the Planning and Zoning Department. The Department will place the application on the Planning and Zoning Commission agenda and distribute the application to the relevant City departments. The Department will inform the applicant of meeting times and locations.

From the day the Commission accepts the application at its meeting, the Planning and Zoning Commission has 65 days in which to make a decision on a site plan application. The applicant may consent to one or more extensions of the 65 day period provided the total period of such extensions does not exceed 130 days. No public hearing is generally held on a site plan application.

The applicant must meet with the Architectural Review Committee. This Committee advises the Commission and the applicant on the design of the buildings and the site layout.

Special Exception:

The Planning and Zoning Commission decides on all special exceptions. If a project requires a special exception as well as site plan approval, the applicant may apply for both approvals at the same time. Site plan approval, however, cannot be given prior to the approval of a special exception.

Inland Wetlands:

An application to the Inland Wetlands Commission must be filed prior to, or at the same time as, site plan or special exception applications. No action can be taken until after the Inland Wetlands Commission's decision.

Conservation and/or Preservation Restrictions:

If the property subject to site plan approval has a conservation or preservation restriction on the land, the holder of the restriction is required to be noticed of the application. The applicant must notify the holder of the land restriction regarding the application by certified mail, return receipt requested, no later than 60 days prior to the filing of the application. In lieu of such notice the applicant may submit a letter from the holder of such restriction (or their agent) verifying that the application is in compliance with the terms of the restriction.
